

## Project Case Study

### The Challenge

To provide an antique brass finish on some very detailed and intricate areas. It needed to reflect the exclusive luxury called for in the design brief.

### The Solution

Bradleys applied a real brass finish from their Metalite range, which was then handcrafted and aged accordingly.

### The Detail

Situated in Mayfair opposite Claridge's, 33 Davies Street is a landmark building at the junction of Grosvenor and Davies Streets, sharing a block with 73 Brook Street. Its grand entrance features a hand-crafted bronze stair balustrade, each piece unique, reflecting a boutique hotel feel rather than a typical office. These Grade A offices hold a BREEAM 'Excellent' rating and won Best Commercial Building at the 2014 Brick Awards.

## Project Data

<b>Location:</b>	33 Davies Street, London W1
<b>Sector:</b>	Office
<b>Completion:</b>	2013
<b>Items Coated:</b>	Interior Reception Stairs
<b>Substrate:</b>	Mild Steel
<b>System:</b>	<u>Metalite</u>
<b>Durability:</b>	25+ Years Internal
<b>Finish:</b>	MET103
